PROGRAM BENEFITS

POST GRADUATE PROGRAM IN BUSINESS ANALYTICS

1

INDUSTRY RELEVANT CURRICULUM

The curriculum of PGP-BA covers the basics of management and deep dives into analytics. The academic exhaustiveness of the program is complemented by hands on exposure on tools and technologies such as SAS and industry lectures delivered by senior executives from leading analytics organizations.

2

INNOVATE PEDAGOGY

The program creates a blended learning environment that causes minimal disruption to work schedule. The classroom sessions are followed up by online lectures that keep your learning continuous and self-paced. Good education should be forever and hence, the candidates in our program can access the content online (lectures, pre-readings, assignments) even after they have graduated.

3

HANDS ON EXPOSURE

An integral part of learning experience in PGP-BA is the virtual lab wherein the candidates get hands on exposure and build skills in tools and technologies such as SAS, Tableau, etc.

4

CORPORATE PARTNERS

The corporate partners of the program include leading analytical organizations and support the program in curriculum design, student driven projects, industry case studies and guest sessions by their senior executives.

EVALUESERVE
YOUR GLOBAL KNOWLEDGE PARTNER

5

GREAT LAKES ADVANTAGE

Great Lakes is one of the premier business schools in the country and has been consistently ranked within the top 15 in the country. The analytics program by Great Lakes would give the candidates an opportunity with the best of the employers and access to the Great Lakes alumni base worldwide.
